ABOUT TRAINER

ABDULLAH QURESHI

Abdullah Qureshi is currently working at Telenor Pakistan as EDW Solution Architect.

He is the lead trainer of our Data Warehousing and Business Intelligence Training Program. He has over 6 years of experience in the field of ETL and EDW design and development. As an expert in his domain, Abdullah has worked on numerous projects of Data Warehousing and Business Intelligence solutions' implementation in both public and private sector of Pakistan.

ABOUT DWH AND BI:

Inductin has designed a 2 month Data warehousing & Business Intelligence Training program. The course has been designed considering the current practices & standards of DWH and BI being implemented in the IT industry.

This course will offer you to understand data architecture skills which is becoming critically important for various technological fields. You'll also learn the following:

- Concepts of Data Warehousing and Business Intelligence
- ETL Design and Development
- BI Design and Report Development
- Data Modeling
- Advanced SQL & Optimization Techniques
- ETL/BI Tools
- Hands-on-experience on live projects

SOFT SKILLS:

For a complete professional development experience, this course comes with soft skills training sessions which include but not limited to:

- Presentation Skills
- Creative problem solving and decision making
- Leadership skills
- Communication skills (listening skills)
- Teamwork / collaboration skills
- Stress management
- Emotional intelligence (EQ)

TESTIMONIALS

"I found the Business Intelligence program very useful & fulfilling as it has helped in getting the right opportunities to learn and get hands on training on the tools that are being used in the industry right now. I know that I can now project myself in the professional world. Thank you Inductin!"

JARRI ABBAS BANGASH

Business Intelligence course at Inductin has tremendously helped me understand industry requirements from fresh graduates as our trainers are also industry professionals. This will help me further my career in the right direction

FAISAL MAQBOOL

"When I graduated, there was no direction of what I should do in my professional life. Inductin gave me the platform to fulfil the gap between my professional and academic life. Business intelligence training program was one of the best experience of my life. From knowing the basics of data warehouse to hands on projects, it was one of the best things that ever happened to me."

NABEEL REHMAN

"I started as a fresher who didn't know anything about Business Intelligence or Data Warehousing. In the beginning of this training program, it was difficult for me to grasp the concepts and apply them in a practical environment but the way our trainer handled such situations, it was extra-ordinary. Today, I can say that Inductin has made me able to project myself as a professional in BI and DWH."
